

### **Grooming, Boarding & Daycare Requirements**

At the South Des Moines Veterinary Center, we are committed to the well being of your pet. In order to provide for the health and safety of your pet, and all of the pets in our care, the following preventative care must be current:

DOGS: DHPP, Bordetella, Rabies, Influenza, Fecal\*

CATS: FVRCP, Rabies, Fecal \*

\*Fecals are required every six months

We require written medical history for these services from your veterinarian (if we do not provide these services for you). You may have your veterinarian fax the records to our office if that would be more convenient. Our fax number is (515) 285-1139.

Thank you for allowing us to be your health care partner for your "Best Friend" and remember, we love them too!
